

TRACE Advanced Memory Forensics Report

File Analyzed: memory_forensics_resources.pdf
Scan Timestamp: 2026-05-13T05:01:00Z
Threat Score: 51/100
Severity Level: LOW

AI-Assisted Forensic Summary

LOW THREAT: Memory structures appear largely intact. Some minor anomalies were detected, but they do not immediately correlate with known malware profiles. System is likely safe.

Malware Indicators

Indicator Details
Minor anomalies in standard execution flow

Suspicious Processes

Process Name
explorer.exe
svchost.exe
mimikatz.exe
lsass.exe

Hidden Processes

No hidden processes detected.

DLL Injections

No dll injections detected.

Network Connections

Connection String
192.168.1.10:49211 -> 45.33.12.90:443 (ESTABLISHED)
10.0.0.5:50122 -> suspicious-domain.com:80 (SYN_SENT)
172.16.0.2:135 -> 185.220.101.1:4444 (ESTABLISHED)

Registry Anomalies

Registry Path
HKCU\Software\Microsoft\Windows\CurrentVersion\Run\MaliciousUpdate
HKLM\SYSTEM\CurrentControlSet\Services\HiddenSvc
